Instructions: Read each spiritual gifts question. Find the question number below, underneath one of the planet names, and fill in the number of planet moons that corresponds with your numerical answer – for example, fill in four moons around the planet Nargus if your answer to question 1 is “Always true.” Repeat this process for all 36 questions. The planet with the most moons filled in is the planet you will be sent to for training. See the correlating planet description sheet to find out more about your spiritual gifts.
