3 MAKE A DIFFERENCE

Every project in every community starts with listening. We believe that our congregations, companion churches and partners know their communities best. That's why *they* identify the needs and priorities in their communities, as well as the solutions they believe will make the biggest impact.

The items in this catalog are real examples from projects currently supported through different churchwide ministries. The projects have been planned by our partners — meaning that each community receives exactly the kind of support it needs and none of what it doesn't.

Your donation will be used where needed most within the wider category of each gift you've selected. (For example, a gift of vaccinations may be used to support other health care initiatives.) This allows our church to stay adaptive, flexible and effective in the work that it does. Because we seek to honor your generosity and keep administrative costs low, we do not track individual financial gifts to specific families or locations in the United States or abroad.

Family farm

Popular gift!

Help a family break the cycle of hunger and poverty — for good. A cow, a couple goats, a dozen chicks, two pigs, farming tools, seeds and agricultural training can create a world of opportunity for a family living in poverty. With eggs, milk and meat to eat and sell, and tools and training to increase the harvest, this gift can make a big difference.

Goat

Limited space to graze? Dry land? Goats don't mind! Goats can go where other animals can't, surviving in some of the world's most challenging terrain and unreliable climates. Fresh milk from a goat provides daily nutrition for children and their families. Plus, goats are incredibly quick to reproduce, which provides an opportunity for families to pass the gift on to others in their community.

Piglet

This little piggy couldn't be a bigger lifesaver. This gift is a source of natural fertilizer, helping a family's crops grow tall and strong. If needed, a pig can be sold at market for funds to pay children's school fees or cover an emergency trip to the clinic. That's like money in the bank.

\$30 Piglet

Fish farm

Give your neighbors a fish, and they'll eat for a day. Give your neighbors a community fish farm, and they'll eat for a lifetime. A fish farm starts with a pond, training and a few fast-growing fish such as tilapia. Soon the pond can provide the community with a longtime supply of fish, rich in vitamins, minerals and protein.

\$250 Community fish farm

\$50 Share of a fish farm

Cow

One dairy cow can produce a few gallons of milk each day. Milk provides a calcium-packed source of nutrition for growing children, and a family can generate income by selling extra milk, cheese, yogurt, butter and more. With food, funds and fertilizer, the gift of a cow has got it all.

Honeybees

These busy bees didn't get their reputation as hard workers for nothing! Support families and healthy honeybee colonies with this buzzworthy gift. Honeybees provide honey to eat and beeswax to transform into handcrafted soaps and candles, allowing a family to start a small business selling their products. As an added bonus, these little bees boost crop growth on the farm by pollinating plants everywhere they go.

Abundant community

New!

Equip a whole community with the resources needed to build a stronger future. **This bundle includes a goat, rooster, cow, three chicks, seeds and gardening tools, honeybees, three fruit-tree seedlings, farmers' field school and a community garden** — gifts that will enable neighbors to nourish themselves and their families and generate income. The seeds of hope you help your neighbors plant today will continue to grow for generations to come.

Water filter

When safe drinking water just isn't available — especially in times following emergencies or natural disasters — **a simple, ceramic water filter is a lifesaver.** Capable of purifying water without electricity or chemicals, a water filter is a powerful, reliable way to provide safe water when it's needed most.

\$30 Water filter

Irrigation system

Many farmers around the world rely on rainwater to nourish their crops. **When the rain doesn't fall, an entire community can be vulnerable to drought and hunger.** Irrigation systems, coupled with training and maintenance, can make some of our most vulnerable farmers and their families more resilient to the impacts of climate change and give them the tools to protect their water supply.

Safe water access

One of the biggest challenges to overcoming poverty is lack of access to clean water. **With a simple well, spring box or other water point, as many as 500 families gain access to clean, safe water.** Communities are healthier. People spend less money on medical expenses and more on food and education. And instead of spending hours each day gathering water for the family, women and children have time for work and school. Talk about a future filled with hope!

\$2,500 Safe water access

\$250 Share of a safe water project

At an average cost of \$2,500, a spring box is one of many types of water projects supported by your gifts. Water wells can range from \$2,500 to \$10,000 or more, depending on the location and cost of materials.

Latrine

When you gotta go, you gotta go. But a startling 2 billion people around the world lack access to basic sanitation, including toilets. Without facilities, contamination of the local water supply and food chain make far too many people sick from preventable diseases. **A new latrine, along with training to help with maintenance and hygiene, leads to a much healthier community, not to mention a safer way to take care of business.**

\$150 Latrine

“ Thanks to the project's hands-on training and instruction, I knew the latrine would be simple to build. My family now has a sanitary latrine to use.

Start a small business with a microloan

A woman may have the necessary leadership skills to realize her dream of owning a small business, but without savings or access to credit, getting started can be a challenge. **A microloan can be just what a woman needs to start her business — weaving, baking or running a storefront, for example — to create a steady source of income and help her family overcome poverty.** As she repays the loan, the funds are reinvested in a cooperative so that the cycle of giving will continue and its impact will grow.

\$125 Microloan for a woman

Send a woman to farmers' field school

Women are the force behind half the world's food production, but they don't always enjoy the same access to land, supplies or education as their male counterparts. **According to one estimate, if female farmers around the world had equal access to these resources, the resulting food production would put a significant dent in the number of people living in hunger.** With an opportunity to attend farmers' field school, women can learn the latest advances in agriculture, marketing and leadership, and help nourish their families and communities.

Send a girl to school

Worldwide, girls are far less likely than boys to be enrolled in school. Many factors play into this, yet helping families with school fees and uniforms can eliminate the difficult choice parents make about which child goes to school and which stays home. **When you educate a girl, you open a world of opportunity for her future and the future of her family and community.**

Stock a backpack with food

More than 30 million children in the United States depend on school meal programs to stay well-nourished and ready to learn. But on weekends many children struggle to maintain the same nutrition level at home. Backpack programs across the country help students at risk of hunger by discreetly stocking their backpacks with a weekend's supply of food each Friday afternoon and sometimes over holidays. That way, children — and their families — have a couple days of healthy meals and snacks to get them through the weekend and back in the classroom ready to learn!

Climate resilience kit

In many areas around the world, a single hurricane, flood, drought or other disaster can destroy the livelihoods of entire communities. A climate resilience kit can prepare our most vulnerable neighbors — especially farmers — to adapt to changing weather. With a **fruit-tree farm, seeds and tools, farmers' field school, community garden, honeybees, three environmentally friendly cookstoves and an irrigation project**, this gift includes the tools they need to grow heartier crops and to use resources more efficiently. Help create a more resilient and sustainable world for all!

Paul Jeffrey/Life on Earth

“After being given training on climate-resilient farming skills, based on improved seeds, drought-resistant crops and general farm management, my family got good harvests. I can meet my basic needs and eat three meals per day. I would like my fellow community members to engage in climate-resilient agriculture like irrigation farming, which could save us from hunger, improving our food security and ultimately the well-being of our whole community.”

—Leonard, Tanzania

Fruit-tree seedling

Accompany a migrant returning home

New!

Migrants embark on their journeys to a better life filled with hope, but the road is dangerous and often unsuccessful. When they are returned, migrants and refugees typically lack contacts and access to resources to rebuild their lives. Many feel they must leave again, on another dangerous journey. This gift can support returned migrants and empower them to become productive members of their new communities with legal aid, vocational training and more.

Hygiene kit

We all know that hand-washing is an important way to stay healthy and control the spread of disease, including COVID-19. **But in many communities, critical supplies such as soap, bleach and even clean water are scarce.** A hygiene kit provides sanitation supplies and education for households, schools, clinics and other public spaces. It's a simple yet powerful way to protect our most vulnerable neighbors and save lives.

Help a woman leader make a difference

Our global companion churches have identified young women who excel in their studies and show great potential to lead their communities. They need only financial support to continue their schooling. **That's where you can play a role — by offering a scholarship and a spot in one of our ELCA colleges or universities** so a young woman can complete her education in business, women's rights, peace studies or some other subject. After their education these women return to their home countries, ready to assume important leadership roles. You can play a key role in a young leader's story, and one day we'll all benefit from what she shares with the world.
