

Planning Grid for Intergenerational Events

Use this chart as a guide as you plan for any of the learning modules introduced on the preceding pages and found on-line at www.elca.org/dcm/christian_education/resources/2003CEProgramPlanner. This same chart will give a one-stop planning overview for your own "home-grown" intergenerational events, mid-week activities, or other learning opportunities. Make photocopies for each event and share copies of the completed grid with other event leaders and volunteers.
