

Service projects and mission trips are increasingly popular within households, congregations and youth groups. Yes, it feels good to serve! Yet, for service to lead to transformed, faith-filled lives, it needs to be informed and intentional. This unit offers approaches to Service and Learning as a way of life based on our call to serve our neighbor as Christ loved and served us. Participants will be engaged and equipped through hearing God's story, presenters' personal experiences, a theology for serving, research and examples of "how-to's" and things "not-to-do."
